GUIA DE COMPONENTES

COMPONENTES

UNISPAN es una empresa moderna, especializada en el diseño, arriendo y venta de encofrados y andamios para la construcción.

Con nuestra casa matriz asentada en Chile, hoy tenemos presencia en Perú, Colombia, México, Panamá y Centro América, países desde donde coordinamos nuestro accionar hacia el resto del continente.

Desde el inicio en 1995 nos hemos especializado en la entrega de nuevas, creativas y eficientes soluciones de encofrado y andamios para cada tipo de obra. En cada país en que estamos operando, disponemos de un stock permanente de todos los equipos y elementos que conforman nuestros sistemas de encofrado para venta y renta. Así les aseguramos a nuestros clientes un rápido y seguro abastecimiento de todos los elementos que conforman cada solución propuesta.

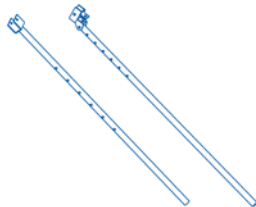

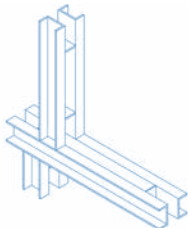

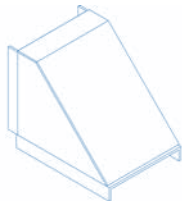

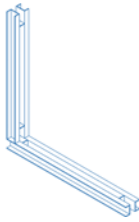

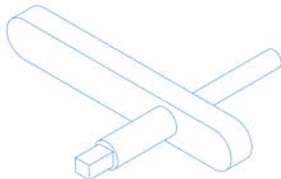

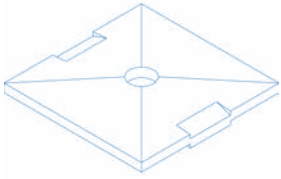

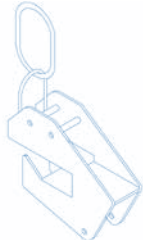

UNISPAN entrega un servicio especializado e integral a sus clientes que comienza con el diseño de las soluciones más adecuadas, el suministro de los equipos en venta o arriendo hasta la asesoría durante el desarrollo de cada obra, bajo la supervisión de profesionales altamente calificados.
